Vacuum Membrane Press pvc interior film,
Customization pvc decorative film

Product Description

Quality PVC Film Roll for Vacuum Membrane Press

Product Description:

Our PVC Foil is made primarily of Polyvinyl Chloride (PVC), a synthetic plastic material. It is well-known for its durability, flexibility, and processability.

It is designed to mimic the look of natural materials such as wood, stone, fabric, or metal, but at a fraction of the cost. It not only looks exquisite, but is also very budget-friendly.

This foil is suitable for application on different surfaces – such as doors, cabinets, furniture or walls – and it adheres nicely to different substrates. Making it the perfect choice for both residential and commercial areas, including kitchens, bathrooms, retail displays, and more.

Thanks to its resilience and strength, it is suitable for high-traffic locations and requires little maintenance – just a quick weekly wipe-down with a moist cloth.

In addition, it offers many options for modification: With a large range of styles and finishes available from manufacturers, it is possible to meet any project specifications or personal design preferences.

Technical Parameters:

Our selection of thickness covers 0.1mm to 0.5mm, and width choices of 1260mm and 1400mm. Our stock of rolls range in length from 100 to 400m. There are countless wood grain designs for you to choose from, and the surface can be Matt, Super matt, embossed, high gloss, or soft touch. And if needed, our experienced staff can provide OEM, ODM, and Custom services to suit your specific needs.

Applications:

Our **PVC foil** is comprised of **Polyvinyl Chloride (PVC)**, an artificial plastic material renowned for its durability, flexibility and ease in processing. It comes with an array of colors, patterns and textures, which can effortlessly imitate the look of natural materials such as wood, fabric, stone and metal, while providing a cost-efficient substitute.

The foil can be used on various surfaces, including but not limited to, doors, cabinets, furniture, and walls. It is well-thought as a reliable material because of its resistance from unraveling and strength, making it popular to be used in high-traffic areas. After installation, the foil demands minimal maintenance. Wiping down with a damp cloth from time to time is all it needs.

The main advantage of our PVC foil is its low-cost, in comparison to natural materials, which makes it possible to have an elegant design without costing a fortune. Manufacturers provide a vast array of styles and finishes, allowing customers to modify the foil to match project specifications and personal design preferences. It is widely used in residential and commercial objects, such as kitchen and bathroom cabinets, door panels, wall coverings, furniture surfaces, retail shelves, and more.

The technical parameters of our PVC foil are as follow:

Thickness: 0.1mm to 0.5mm

Width: 1260mm and 1400mm

Length: 100 to 400m roll

Design: Wood grain, Solid color, Marble, Brick and other designs

Surface treatment: Matt, Super matt, embossed, high gloss, soft touch

Service: OEM, ODM, Customized

Different methods are applied to use the film coating for various applications, with thickness, width, and length adjusted according to the purpose: Membrane Press (vacuum press), Wrapping Profiles, Cold Laminating, Hot Laminating and Self-adhesive.

Customization:

Realsun Deco specializes in providing high quality Wood Grain PVC Film with custom services. This product is manufactured in Foshan, China and is waterproof, anti-flame, and easy to clean. It is available in a range of thicknesses (0.1mm-0.5mm) and widths (1260mm, 1400mm). It also comes in more than hundreds of wood grain designs for you to choose from. Packing is done in rolls with foam sheet, kraft paper and plastic sheet. This decorative PVC foil and wood effect PVC film is perfect for your decorative PVC foil rolls.

Support and Services:

Wood Grain PVC Film offers technical support and service for customers. Our technical support team can help you with product advice, installation instructions, troubleshooting, and more. We also offer online resources, such as our knowledge base and FAQs, to help you find the answers you need quickly and easily. If you ever need additional support, our team is available to answer your questions via phone, email, or chat.

Packing and Shipping:

Wood Grain PVC Film packaging and shipping is done in large rolls of up to 50 yards, wrapped in plastic and secured with steel bands.
