Product Description

0.1mm-0.5mm High Glossy Marble PVC Foil For Kitchen Cabinet Counter Top Decoration

Product Description:

Our **Polyvinyl Chloride (PVC)** foil is primarily made from PVC, a synthetic plastic material known for its **durability, flexibility, and ease of processing**. It is available in a wide range of colors, patterns, and textures, mimicking the look of natural materials such as wood, stone, fabric, or metal, offering a cost-effective alternative and a high-quality aesthetic.

Our foil can be applied to a variety of surfaces, including doors, cabinets, furniture, walls, and more. Its superior resilience to decay and strength make it a popular choice for high traffic locations. Realsun Deco PVC foil is also simple to maintain, only requiring to be wiped down once a week with a moist cloth.

In addition, PVC decorative foil is more affordable than natural materials while still enabling the construction of upscale aesthetics.

Furthermore, a large range of styles and finishes can be selected from manufacturers, meeting project specifications and personal design preferences. It is commonly used in residential and commercial settings for applications such as kitchen and bathroom cabinets, interior doors, wall paneling, furniture surfaces, retail displays, and more.

Features:

Product Name: Marble PVC Film

Colors: Marble, Brick, Wood Grain and so on

Material: PVC (PVC printable film, 0.25mm PVC film, PVC composite film)

Application: Furniture, Cabinet, Wall, Ceiling, Door

Width: 1260mm, 1400mm

Packing: Pack in roll with foam sheet, kraft paper and plastic sheet

Technical Parameters:

Our products come in a variety of thicknesses from 0.1mm to 0.5mm, and various widths from 1260mm to 1400mm. Available in lengths from 100m to 400m per roll, they provide a selection of designs including Wood grain, Solid color, Marble, and Brick materials. The surface treatments are varied and with options such as Matt, Super matt, embossed, high gloss, and soft touch texturing. Furthermore, we provide OEM and ODM services.

Applications:

Membrane Press (vacuum press)

This process is used to cover materials like MDF, particleboard, wooden board, fiberboard, etc. It is typically used in furniture-making and building, for applications like covering doors, kitchen cabinets and wardrobes. It can also cover embossed boards, and cover all five surfaces at the same time.

The material has a typical thickness of 0.20-0.50mm, and comes in rolls of a width of 1260mm or 1400mm, in a length of 100-300m.

Wrapping Profiles

This process is used to cover a variety of profiles - wood profile, aluminum profile, and PVC profile, among others - used in door frames, window sills, base channel and PVC ceilings.

The material has a thickness of 0.12-0.18mm and width of 40-1260mm, and is available in rolls of a length of 300-800m.

Cold Laminating

This process is used to cover all sorts of flat panels, such as wood panels, steel panels, aluminum panels and PVC panels. It is most commonly used in door and furniture making.

The material has a thickness of 0.12-0.20mm, comes in a width of 1240-1260mm, and is available in rolls of a length of 300-500m.

Hot Laminating

This process is used to cover material like PVC panel, steel panel, aluminum panel, usually for doors, skirting and similar applications.

The material has a thickness of 0.16-0.30mm, comes in a width of 1260mm, and is available in rolls of a length of 200-300m.

Self-adhesive

This process is best used for furniture and indoor decorations, as it can be put on any smooth surface.

The material has a thickness of 0.10-0.20mm, and comes in rolls of width 600mm/1220mm, in a length of 5-50m.

Customization:

Realsun Deco, a brand from Foshan, China, provides custom-made services for **Marble PVC Film**. The minimum order quantity is 3000m/model. The price is negotiable. The packaging details are in roll. The delivery time is 15-20 days. Payment terms are T/T 30% down payment, 70% balance before shipment. The supply ability is 500000m/month. The product is available in marble, brick, wood grain and so on. The material is PVC. The width is 1260mm, 1400mm.

Our Marble PVC Film has features such as **PVC printable film**, **0.25mm PVC film** and **PVC film for wall panel**. We guarantee high quality products with lower price. If you are interested in our product, please contact us.

Packing and Shipping:

Packaging and Shipping for Marble PVC Film

The pvc film is packed in roll with wrapping foam sheet, kraft paper and plastic sheet. We can offer pallet packing for shipping by sea or air.

The roll is then labeled with the customer's address and shipped via the selected shipping method.
