- Thickness: 0.10mm-0.5mm
- Material: PVC
- Highlight: **Marble PVC Film, Wall Marble PVC Film, Furniture Cabinet Marble PVC Film**

Product Description

Product Description:

Material:

Our PVC foil is primarily made from Polyvinyl Chloride (PVC), a synthetic plastic material known for its durability, flexibility, and ease of processing.

Appearance:

Our PVC foil is available in a wide range of colors, patterns, and textures. It can mimic the look of natural materials such as wood, stone, fabric, or metal, providing a cost-effective alternative to these materials while retaining a high-quality aesthetic.

Versatility:

Our foil can be applied to a variety of surfaces, including doors, cabinets, furniture, walls, and more. It adheres well to different substrates and can be used in different areas within interior spaces.

Durability:

Realsun Deco PVC foil is renowned for its resilience to deterioration and strength. Because of its durability, it is frequently used in high-traffic locations.

Maintenance:

Our PVC foil requires little upkeep once it is placed. It is simple to maintain and usually just has to be wiped down once a week with a moist cloth.

Cost-effective:

The affordability of PVC decorative foil in comparison to natural materials is one of its main benefits. It makes it possible to create upscale aesthetics without incurring the related expenses.

Modification:

A large range of styles and finishes are available from manufacturers, enabling modification to meet project specifications and personal design preferences.

Application:

Decorative PVC foil is commonly used in residential and commercial settings for applications such as kitchen and bathroom cabinets, interior doors, wall paneling, furniture surfaces, retail displays, and more.

Technical Parameters:

PVC Film Detail Specification

The PVC film is available in various thicknesses ranging from 0.1mm to 0.5mm. It also comes in different widths including 1260mm, and 1400mm. The length of each roll varies depending on the chosen thickness, with options ranging from 100m to 500m.

For design options, customers can choose from a variety of options such as wood grain, solid color, wallpaper design, brick design, marble design, flower design, and laser design. The surface treatment for the film can either be matt or embossed (with texture) for added dimension. Alternatively, a high gloss finish can also be selected.

Our services include OEM production to meet specific requirements, as well as customized design and size options to cater to different needs. With our PVC film, customers can create unique and personalized surfaces for their projects.

Applications:

Membrane Press

Our membrane press is designed for covering various materials such as MDF, particle board, wooden board, fiberboard, and more, to create doors, kitchen cabinets, wardrobes, and furniture.

Wrapping Profiles

Our wrapping profiles are suitable for covering all kinds of profiles, including wood, aluminum, and PVC profiles. They can be used for door frames, window sills, base channels, PVC ceilings, and more.

Cold Lamination

Our cold lamination process is perfect for covering all types of flat panels, such as wood, steel, aluminum, and PVC panels. It is most commonly used for doors and furniture.

Hot Lamination

For a more secure and durable finish, our hot lamination is ideal for covering PVC, steel, and aluminum panels. This process is commonly used for doors, skirting, and other surfaces.

Self Adhesive

All of our PVC films can be made into self-adhesive options. These films use PVC decorative film as the base material and feature an environmentally-friendly acrylic pressure-sensitive adhesive. They are perfect for easily and efficiently covering furniture and decorations with a strong hold.

Introducing Realsun Deco's Customization Services for our Marble PVC Film. Our PVC composite film is perfect for lamination and can be used for ceiling applications as well.

Our customization services allow you to choose from a variety of colors such as marble, brick, wood grain and more. Made from high-quality PVC material, our Marble PVC Film is durable and long-lasting.

With a minimum order quantity of 3000m per model, we offer competitive prices and flexible payment terms. Our packaging is done carefully to ensure safe delivery and we have a supply ability of 500000m per month.

Choose Realsun Deco for all your PVC film needs and experience our high-quality products and exceptional customization services.

Packing and Shipping:

Packaging and Shipping for Marble PVC Film

Our Marble PVC Film is carefully packaged to ensure its safe arrival to you.

The film is first wrapped with a layer of protective foam sheet and then with kraft paper and plastic sheet.

This packaging method helps to prevent any damage or scratches during transportation.

For large orders, the film is placed on pallets and shrink-wrapped for added protection.

Our shipping options include air, sea, and land transportation, depending on your preference and location.

We work with reliable and experienced shipping companies to ensure timely delivery of your order.

Once your order is shipped, we will provide you with a tracking number for your convenience.

Thank you for choosing our Marble PVC Film. We look forward to delivering high-quality products to you.
