- Application: Furniture, Door, Wall, Kitchen Cabinet, Ceiling Etc.
- Usage: Lamination, Vacuum Membrane Press, Wrapping, Hot Press And So On
- Highlight: **Professional Lamination Solutions PVC Film , Customizable Super Matte PVC Film**

Product Description

Product Description:

Realsun Deco PVC Foil: A Durable and Affordable Solution for Your Home and Business Needs

Material

Our pvc foil is made from Polyvinyl Chloride (PVC), a synthetic plastic that offers superior strength, flexibility, and ease of processing. This makes it an ideal material for creating a variety of decorative elements.

Appearance

We offer a range of colors, patterns, and textures for our pvc foil to closely imitate the appearance of real materials such as wood, stone, cloth, or metal. At the same time, it is more affordable and delivers a premium look.

Adaptability

Our pvc foil is highly adaptable and can be used on various surfaces such as walls, cabinets, doors, and furniture. This makes it an ideal choice for any interior space with its effective performance on different surfaces.

Durability

Realsun Deco PVC foil is renowned for its long-lasting strength and resistance to deterioration. This makes it perfect for high-traffic areas, where it will continue to maintain its superior performance for years to come.

Maintenance

Once installed, our pvc foil requires minimal maintenance. It only needs to be cleaned once a week with a wet cloth, which ensures that the upkeep is easy and hassle-free.

Economical

One of the key advantages of pvc decorative foil is its lower cost compared to natural materials. This allows for the creation of sophisticated aesthetics without incurring exorbitant costs.

Modification

Manufacturers offer a wide variety of styles and finishes for our pvc foil, allowing it to modify based on project requirements and individual design preferences.

Application

Decorative pvc foil has a wide range of applications, from wall paneling and furniture surfaces to retail displays and kitchen and bathroom cabinets. Its versatility makes it a popular choice for both home and commercial settings.

Features:

Product Name: PVC Lamination Film

Service: OEM, Customized Design And Size

Design: Wood Grain, Marble, Brick, Stone, Plain Color Etc.

Material: PVC

Surface: Glossy, Matte, Embossed, Super Matte, Soft Touch

Length: 100-400m/roll

Available designs:

Wood grain

Solid color

Marble

Brick

and so on

Surface treatment options:

Matt

Super matt

Embossed

High gloss

Soft touch

Services:

OEM (Original Equipment Manufacturer)

ODM (Original Design Manufacturer)

Applications:

Different Processes for Different Applications:

When it comes to covering various surfaces, there are different processes that work better for different applications. Here are some common processes:

1. Membrane Press (Vacuum Press)

Thickness: 0.20-0.50mm

Width: 1260mm, 1400mm

Length: 100-300m/roll

This process is ideal for covering MDF, particleboard, wooden board, fiberboard, and more. It can be used for doors, kitchen cabinets, wardrobes, furniture, and even to cover embossed board. It has the capability to cover five surfaces at the same time.

2. Wrapping Profiles

Thickness: 0.12-0.18mm

Width: 40-1260mm

Length: 300-800m/roll

Wrapping profiles involves covering all kinds of profiles, including wood, aluminum, PVC, and more. It's used for door frames, window sills, base channels, PVC ceilings, and other similar applications.

3. Cold Laminating

Thickness: 0.12-0.20mm

Width: 1240-1260mm

Length: 300-500m/roll

This process is used for covering all kinds of flat panels, such as wood, steel, aluminum, and PVC. It's ideal for doors and furniture.

4. Hot Laminating

Thickness: 0.16-0.30mm

Width: 1260mm

Length: 200-300m/roll

Hot laminating is great for PVC panels, steel panels, aluminum panels, and more. It's ideal for applications like doors and skirting.

5. Self-Adhesive

Thickness: 0.10-0.20mm

Width: 600mm/1220mm

Length: 5-50m/roll

Self-adhesive PVC film can be put on any smooth surface for furniture and indoor decorations.

The PVC film is packed by roll with foam protection sheet, kraft paper head, and plastic sheet outside. We can offer pallet packing for shipping by sea or air.

Customization:

Our PVC lamination film is made in Foshan, China, and has a minimum order quantity of 3000m/model. The price is negotiable, and we offer packaging in rolls. The delivery time is 15-20 days, and we accept payment terms of T/T with a 30% down payment and 70% balance before shipment. Our supply ability is 500000m/month, ensuring that we can meet your demand for wood grain PVC lamination film and other finishes.

Support and Services:

The PVC Lamination Film product offers comprehensive technical support and services to ensure optimal performance and customer satisfaction. Our team of experts is available to assist with any questions or concerns regarding installation, maintenance, and troubleshooting. We provide training and guidance to help customers achieve the best results with our product. Our services also include customization of film thickness, width, and color to meet specific requirements. In addition, we offer testing and analysis services to ensure compliance with industry standards and regulations. Our goal is to provide the highest level of support to our customers and exceed their expectations.
